June 13, 2016

TO: Directors of County Agencies, Commissions and Councils, and Non-profit Organizations

FROM: Curtis O. Hamlin,
Chairman, Board of County Commissioners 

SUBJECT: Letter of Promulgation, 2016 Lafayette County Comprehensive Emergency Management Plan

With this notice, I am pleased to promulgate the 2016 Lafayette County Comprehensive Emergency Management Plan (CEMP). The CEMP provides the framework for countywide mitigation, preparedness, response and recovery activities, while providing a structure for plan standardization throughout the county and facilitating interoperability between adjacent local counties, state and federal governments.

Every effort was made to comply with Florida Division of Emergency Management and Federal Emergency Management Agency (FEMA) planning requirements. The CEMP supports the National Response Framework and puts requirements from the National Incident Management System (NIMS) into the county emergency management processes. The plan specifies authorities, functions and responsibilities pertaining to establishing collaborative action between county, state, federal, volunteer, private and public sector organizations. By coordinating all phases of emergency management, the plan assists organizations in minimizing the impact of disasters and emergencies in Lafayette County. I believe it will be a significant tool for saving lives, protecting property, sustaining the economy and preserving the environment.

Finally, the CEMP is a reminder to directors of county agencies, boards, commissions and councils, and non-profit organizations of their two primary goals in emergency management: (1) to support Lafayette County Emergency Management Division and (2) to maintain a comprehensive internal process to ensure continuity of government and the ability to conduct daily business before, during and after a catastrophic incident.
