Subject: RE: Lafayette County Picket Lake Meeting

Thanks for meeting us at the Picket Lake Bridge to discuss the project. In summary, these are the options we spoke about during our meeting at the bridge.

The department currently has two projects programmed for the Island Drive/Picket Lake Bridge. The first project is a SCOP project for rehabilitation for \$300,000 in FY 2019 (438174-1). The second project is to replace the bridge under the Federal Aid Off-System Bridge Replacement Program for \$2.9 million in FY 2021 (437425-1). Neither the Department nor County want to expend funds on the bridge rehabilitation project only to replace the bridge shortly thereafter.

The meeting was held on-site at the bridge on 3/28/2017 and several alternatives were discussed. It is the Departments understanding that the County does not want to pursue the Federal Aid Bridge Replacement project in FY 2021. Below is a summary of the alternatives discussed in lieu of the bridge replacement and the department needs to know which of these alternatives the County prefers:

- Alternative 1: Proceed with the currently funded rehab project for \$300,000 in FY 2019. The County will be responsible for any expenses over the \$300,000 programmed;
- Alternative 1A: Same as #1 above except advance the project into FY 2018. The County can proceed with the project in FY 2018 but will not be reimbursed until FY 2019;
- Alternative 2: Defer the project to FY 2020 and increase the funding to \$500,000. The County will be responsible for any expenses over \$500,000;
- Alternative 2A: Same as #2 above except advance the project to FY 2019. The County can proceed with the project in FY 2019 but will not be reimbursed until FY 2020.

A few items to note regarding these alternatives:

- The \$500,000 is a figure discussed during the meeting on 3/28. If the County believes the \$500,000 is not sufficient to rehab the bridge, the County needs to provide an estimate of how much funding is needed;
- The County must secure the right of way before any construction can begin to rehab the bridge. The Department will not participate in any of the right of way acquisition;
- If the County selects alternative 2 or 2A, the \$300,000 in FY 2019 will stay with the Department and will not be reallocated to another project within the County;
- The amounts identified include all costs such as the design, construction and CEI.

The Department is requesting either a resolution or letter from the Board of County Commissioners confirming their desire to delete the Federal Bridge Replacement project, and which alternative the County prefers for the rehabilitation of the bridge.

Tallahassee, FL 32301

Dear Commissioner Bryant:

Thank you to the Florida Association of Counties (FAC) for assisting with promoting last year's Child Welfare Professionals Recognition Day. We received support from across the state which was due in large part to your participation.

I am again writing to request the FAC's assistance in supporting this year's Child Welfare Professionals Recognition Day, which is observed each year on the second Monday in May. We are requesting that you call on your member counties to pass a resolution recognizing May 8, 2017, in honor of the dedicated men and women who work tirelessly to defend Florida's children.

As a reminder, I have attached a copy of the bill (SB 78) I sponsored as a member of the Florida Senate to create Child Welfare Professionals Recognition Day in 2008. I worked to pass this important bill to acknowledge the sacrifice of our unsung heroes who work tirelessly to ensure the safety and well-being of our most precious resource – our children.

Thank you for your continued support. Do not hesitate to contact my office, at (305) 690-5905, if you have any questions or need additional information.

RE: Lafayette County
CR 416 Rivers Grant Fund
Transfer to CR 300 Roosevelt Circle River Grant

Dear Mr. Webster,

Lafayette County Board of County commission herby request SRWMD to transfer the balance of the unspent Rivers Grant amounting to \$45,000.00 from CR 416 to the CR 300 Roosevelt Circle Project. As you are aware, Lafayette County was not able to seek the consent of property owners along CR 416 and was not able to fully utilize the total Rivers Grant allocated funding for the project, due to the fact the property owner was unwilling to sell the property.

CR 300, Roosevelt Circle Flood protection project, has been in the works for several years. Lafayette County was awarded \$425,000.00 legislative appropriation grant for the project in 2016. We however have not been to utilize the funds, due to the need to acquire the properties needed for storm water and flood protection.

We now have finalized negotiations with critical parcel's property owners, willing to sell their property for area flood control. See attached Map and funds needed.

We request your expeditious processing of this request as one property owner wants this transaction done quickly or he may change his mind.

We appreciate your considerations and thank your staff for working with our staff and engineer on this project.

Sincerely,

Earnest Jones, Chairman
